New Director for NDRF

Dr.V.Dillibabu (Left) takes charge as Director-NDRF from Dr.K.Ramachandra (Right) in the presence of Dr.M.Annadurai (Center), Chairman-NDRF

DRDO Scientist Dr.V.Dillibabu has been appointed as Honorary Director of National Design and Research Forum (NDRF). NDRF, a sub set of Institution of Engineers (India) is a national platform for academia, industry and R&D organisations for interdisciplinary research.

Former Director of UR Rao Satellite Center, Dr.M.Annadurai is the chairman of NDRF. NDRF, a fifty year old body has been a pioneer of collaborative research in India and sensitizes the research ecosystem partners on the evolving technologies that shape the contemporary world, and set new directions for engineering research to address societal challenges.

Dr.V.Dillibabu has research and manufacturing experience in propulsion and structures of defence aeronautical systems. He is post graduate from Defence Institute of Advanced Technology, Pune and holds a Ph.D from National Institute of Technology, Trichy. He is also a post graduate in business management and literature. He had authored 6 books covering literature and technology.
